September 19, 2016

Greetings Club Members,

I have the great pleasure each year of contacting all of you, both new and sustaining members who help make the club what it is today, a delightful skating experience. There's always a level of excitement as the new season approaches with the autumnal beauty of our Hudson River Valley. There is not a more beautiful skating venue in this country! and not a friendlier club!

Our season will begin on November 5th this year, and will end on March 5, 2017. It's time to get your skates sharpened for safety and in anticipation of perhaps learning a new move or two. Our sessions accommodate both the basic or more advanced skaters, freestylers, ice dancers or the novice.

Please note on the attachments that we are offering group lessons for various skill levels and encourage all members to consider joining. In addition, for private lessons, please visit our website www.bearmountainfsc.com to contact our team of talented and patient coaches. A synchronized skating class will also be available on Saturdays from 9:15 to 9:45. As usual we will be hosting a gala show in late February with everyone participating, and plans are already in place to provide a maximum amount of show practice time this year.

Please send in your 2016-17 Membership Application, Waiver & Release of Liability Form, Class Requests, Annual Skating Show form and dues for this coming season as soon as you can.

Here's to a safe season, smooth ice, good weather and friendship!

Warm regards,

Linda Magnusson-Rosario
President / HLFSC
